

	As of June 29, 2021				
	Negative Pre-arrival COVID-PCR Test Requirement for Visitors?	Online Registration pre-Travel Required?	PCR Test Upon Arrival?	Periodic Tests Required while on Vacation?	Other
Bermuda	Yes - but no more than 3 days pre-travel	Yes - including payment for PCR tests while in BDA	Yes	Yes (day 4, 8, and 14)	Pre-approval form approval has been a farce recently - has caused people to miss flights
Barbados	Yes - Negative PCR test within 3 days of arrival	No	Vaccinated traveller= second PCR test at airport or at accommodation (must quarantine in government preapproved facility until results), if negative can enjoy the island and no more tests	Unvaccinated travellers face 5 days of quarantine (in government preapproved facility) then second PCR test, if negative can enjoy the island	Visitors can download the BIMSafe travel app - allows visitors to complete online customs form, upload negative PCR test results and complete their health questionnaire, all from one centralised place, as well as monitor temperature during the 7 days after arrival
Bahamas	Vaccinated travellers do not need pre-arrival PCR test; unvaccinated travellers must have a negative PCR test within 5 days of arrival	All travellers must complete the Bahamas Travel Health Visa application - cost will include Covid-19 health insurance	No	Unvaccinated travellers required to take rapid antigen test on day 5, no tests for vaccinated travellers; unvaxxed travellers must complete a daily health questionnaire.	
Antigua & Barbuda	Yes - All travellers must present a neg PCR test within 7 days of arrival	No - visitors complete a health declaration form upon arrival	Only if deemed necessary by the health authorities; there is a mandatory temperature check for all visitors	Only for positive Covid-19 visitors, or if directed by health officials (language is quite vague)	

<p>Cayman</p>	<p>Yes - negative PCR test required within 3 days of arrival</p>	<p>Yes - must be pre-approved to enter Cayman</p>	<p>No</p>	<p>All travellers must be tested before exiting quarantine - vaccinated travellers must quarantine for 5 days, unvaccinated for 14 days; negative PCR test required within 72 hours of arrival</p>	<p>Tourism industry largely shut - expected to allow in September, but no firm guidance; Cayman in phased reopening process - being very strict</p>
<p>Jamaica</p>	<p>Yes - negative PCR, NAA, RNA or Antigen test performed by an accredited lab within 3 days of arrival</p>	<p>Yes</p>	<p>Only business travellers (who are not required to provide pre-flight neg PCR test) or travellers exhibiting Covid-19 symptoms</p>	<p>Only for positive COVID-19 visitors</p>	<p>Must quarantine for 14 days regardless of negative PCR test; rules slightly different for resident, business travellers and tourists - tourists must adhere to the "Stay in Resilient Corridor" - approved activities within a geographic area</p>
